Life Link III's annual conference is transitioning from Trauma Tactics to "Time Critical Tactics – A Prehospital, Critical Care and Trauma Conference." Using conference attendee input, the conference will go beyond “trauma,” to address the broader range of medical conditions that benefit from early access to critical care and minimal out-of-hospital time.

**Time Critical Tactics:**
- Is designed for providers of all levels, covering rescue and prehospital scenarios, to transport and in-hospital treatment.
- Offers educational sessions that will focus on “harder-to-get” National Registry education components for EMR, EMT and paramedics.
- Features expert speakers showcasing this year’s conference theme, “Innovation in Patient Care,” covering the latest industry trends and hands-on skills training designed to enhance attendee abilities as a care provider.
- Continues to provide networking time with fellow attendees, sponsors and exhibitors in the Expo Hall.
- Includes plenty of **FUN** with an on-site reception and hypnotist comedy show at the Red Carpet Event Center!

**NEW EDUCATION TRACKS**
Time Critical Tactics has been designed to accommodate the different skill levels and interests of attendees by providing three education tracks. Participants may select education and hands-on training sessions from the BLS/General, ALS/Critical Care, and Patient Care Insights track (featuring Life Link III Consortium members). Attendees are encouraged to cross-over tracks and attend the sessions they find most beneficial.

**Hands-on Skills Training**
Attendees will have several opportunities to participate in hands-on skills training. Each course has a limited number of attendees – **register early and reserve your spot**!
- Neonate and Pediatrics Pharmacology Skills Lab
- Airway Management Bootcamp (offered for both BLS/General and ALS/Critical Care tracks)
- OB Emergencies (offered for both BLS/General and ALS/Critical Care tracks)

**Emergency Medical Services for Children (EMSC) PEDS Skills Course**
This training is four hours of hands-on education covering the topics of children with special healthcare needs, pediatric emergency airway, medical and trauma. Designed for anyone to improve knowledge and proficiency when treating pediatric patients.

**CONFERENCE HIGHLIGHTS**
- Exhibit Hall featuring a wide range of hospital and EMS-related products and services
- Blood Drive in partnership with Memorial Blood Centers
- SIM Experience featuring the Life Link III team and HealthPartners Simulation Center
- Friday networking reception in the exhibit hall
- Friday evening entertainment featuring hypnotist/comedian Jared Sherlock at the Red Carpet Event Center

**WHO SHOULD ATTEND?**
Hospital and prehospital providers including:
- Nurses
- EMTs/Paramedics/EMRs
- First Responders
- Law Enforcement
- Dispatchers
- Fire Fighters

**Save money – register today!**
Discounted Early Bird registration rates end September 8, 2017 and hotel block reduced rates expire September 6 & 10, 2017.
